October 7th

Dear Timothy,

Enclosed is a copy of your contribution to Magic Grams, plus a version of that proposed book that I hope you'll pass on to Jeremy Tarcher.

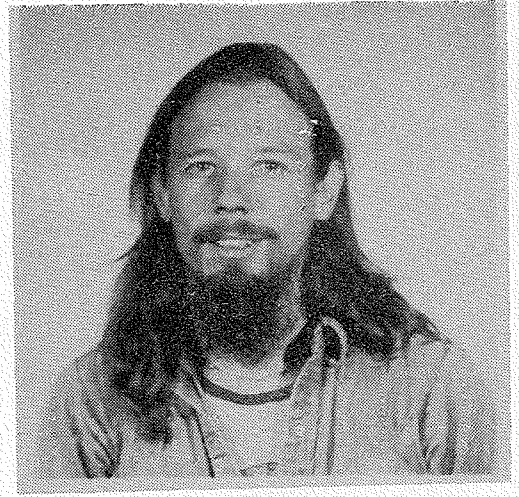

The shape of this book is now becoming pretty evident. I would like to gather four more accounts, though they may not be necessary. Sidney Cohen, Humphry Osmond and Al Hubbard agreed to cooperate back at that gathering at Oscar Janiger's, but haven't seen any of what has developed so far. I've written Stanislaw Grof about this, and yesterday received his agreement to be included.

Also: Oscar Janiger was much dismayed upon discovering recently that someone had Xeroxed a transcript he had made of a talk between Aldous Huxley and Gerald Heard, and consequently has written me that he may wish to withdraw his contribution to Magic Grams. I've urged him not to, but would honor his wishes in this matter.

I'm looking forward to seeing you soon at Heartwood College, hoping to be your best student.

You're a fine editor. Thanks.

*Peter Stafford*

June 19, 1979

Dear Tim & Barbara,

Just a quick note to inquire whether the ~~quote at the bottom of page 2 of the~~ enclosed article is ok with you. Bruce & I wrote this for Omni magazine -- they've promised a "reading" -- & have indicated we would want your approval before publication.

We and friends are enjoying The Intelligence Agents tremendously. May it sell a million!

Warmest regards from temperate Santa Cruz,

Pete Stafford
